

Abatis for Maritime ICS SCADA

In conjunction with our partners **CLA Consulting, SETEL PowerLine and ECDIS Ltd**, Abatis is pleased to launch a **Cyber Malware Protection System** created specifically to meet the needs of the **Maritime sector**. In particular it can protect the following vulnerable systems on board ship as well as shore-based systems:

- *Communication Systems*
- *Bridge Systems including ECDIS*
- *Propulsion & Power Control*
- *Access Control Systems*
- *Cargo Management Systems*
- *Passenger Servicing & Mgt.*
- *Passenger-facing Networks*
- *Core Infrastructure Systems*
- *Admin & Crew Welfare Systems*
